Mission
The Hume Center’s mission is to provide high quality, culturally sensitive, and comprehensive behavioral health care services and training. We strive to promote mental health, reduce disparities and psychological suffering, and strengthen communities and systems in collaboration with the people most involved in the lives of those we serve.

We are committed to training behavioral health professionals to the highest standards of practice while working within a culture of support and mutual respect.

Philosophy
The staff of The Hume Center believes:
• In the inherent potential for ongoing growth and maturation of all people.
• That psychological pain, dysfunction, and symptoms are teachers, signaling the arrest of our ability to be engaged in the fulfillment of life.
• That with acceptance and the proper therapeutic support, provided in an atmosphere of respect and multicultural competence, people can heal, learn new ways to deal with difficulties, and lead satisfying lives.

Medi-Cal and Medicare are accepted at all sites. CalWORKs and HealthPAC are accepted at Alameda County sites. Private insurance is accepted for some services with preauthorization. Sliding scale fees are available.

Portia Bell Hume Behavioral Health & Training Center

Portia Bell Hume, M.D was a pioneer in developing community mental health and was instrumental in the writing and passage of California’s Short-Doyle Mental Health Services Act in 1957. She had the foresight to provide professional training by creating the Center for Training in Community Psychiatry. R.K. Janmeja “Meji” Singh, PhD, Founding President of The Hume Center, worked with her as the Assistant Director for 14 years. Her legacy of dedication to the betterment of the community lives on today, as the Portia Bell Hume Behavioral Health and Training Center was named after her to continue her vision to provide comprehensive mental health services and best practices in professional training and research.

The Hume Center was initially incorporated as Neurobehavioral and Psychological Institute (NPI) in 1993, providing outpatient services in a room rented from Rosebridge Graduate School. Soon after the founding, the name was changed to Portia Bell Hume Behavioral Health and Training Center as the services offered expanded into a continuum of care. Mental Health Consultation has always been a specialty of The Hume Center by Dr. Singh. He is recognized internationally as a trainer in community mental health and organizational consultation. The agency’s consultation practices are grounded in the work of Gerald Caplan, who developed the theory and practice of Mental Health Consultation, and have been modified based on experiences and successful practice by Dr. Singh and current President Joty Sikand, PsyD. Dr. Sikand has utilized enabling leadership to facilitate the expansion of the agency to twelve programs. Each program has been developed by trainees and this expansion has resulted in the agency now training over 40 doctoral trainees and impacting thousands of people each year.

Who Was Portia Bell Hume?

The Hume Center
For Humanity’s Sake
